OBITUARY OF MRS. ELIZA JANE NEWTON

Mrs. Eliza Jane Newton was born October the 2nd, 1880, in Salem, Tenn. As Miss Eliza J. Iish, she was married to Rev. J. K. P. Newton on October 17th, 1876, in Nettleton, Miss. Coming to Maysfield, Texas, in the 80's, they reared a large family and their Christian influence was extended out into the county and state. At Mr. Newton's death, left with little children, she got under her responsibility and carried on nobly for her Lord. Some of these children have passed on ahead of "Granny" but there are living today seven children—5 sons and 2 daughters, 22 grand children, and 12 great grand children—41 descendants still living today.

In the Sketch of his life, Mr. Newton says: "We have mutually shared each other's joys and sorrows and every day reveals to me still more clearly her solid worth." He refers to her as a kind, loving and dutiful wife, industrious, sensible, and frugal. He says: "She is kind hearted and generous, and forgetful of the faults and failings of others. She is patient in the midst of domestic turmoils, and her fingers are nimble in all kinds of household work." He refers to her as doing all things well from the kitchen to the parlor, and he felt that he could apply to her the words in Proverbs the 31st chapter, describing the Virtuous Woman.

While great events and prominent personages in a global war are catelng the eye of thousands who read the front pages of our newspapers today, not many turn aside to think of one who was patient under handicaps and who daily strove to "keep the commandments of God and the faith of Jesus." In the big world today, few realize that in a small and obscure village, from which no big happenings find their way into the daily press, there lived a quiet little mother who spent around 60 years influencing the life of her community for God and righteous living, interpreting to others the spirit of the Christian religion. The big parade might be for others who have won earthly honors, but how much greater it is in the sight of God to live a life in an obscure village that day by day reveals the patience of the saints!

What the big world don't observe and evaluate is that a minister has been sent out to serve a large congregation in a city in another state, that teachers have been sent out to guide the instruction and influence the characters of many little children, and that others have taken their places in other churches in and out of Texas. The influence of such a long life lived nobly and well without the fanfare of trumpets cannot be measured. Not all women of fame in the world are great women. A godly woman can be a great woman.

How blessed is the influence of a true Christian mother! One has said: "Behind every man, small or great, there stands a woman." One of our presidents of the U. S. said: "All I am my mother made me." Many of the world's worthwhile men and women could say the same thing. Someone has said: "True motherhood is ageless, because its essence is love and love is eternal." A woman who was asked by a club to write a paper on "How Can A Woman Uplift the Coming Generation?" was led to this conclusion out of the experience of a judge known for his uprightness: "Woman's strongest hold upon the world is through love and Christian living." Here was a mother whose works do follow her after her death because of many nameless acts of faithfulness to her Lord day after day.

Somebody has written two verses on "The Christian Woman:"

"She hath escaped all danger now,
Her pain and fighting all are fled;
The crown of joy is on her brow,
Eternal glories o'er her head.

In Golden robes, a queen, a bride,
She standeth at her Sovereign's side;
She sees His face unveiled and bright,
A lesser light amid His light."

—Her Pastor.

FEW PRICE VIOLATIONS UNDER OPA REPORTED

Milam County citizens who are donating their time and effort as price panel members and price panel assistants, attached to the War Price and Rationing Board, today reported few instances of non-compliance with "Community Maximum" price regulations, now in effect here.

The statement came from Bartle Crennan chairman of the price panel, after a check of reports filed by panel assistants throughout the county.

The work of panel assistants was heartily commended by Sam Perry chairman of the local board and officials of the Houston OPA district. "These unselfish citizens deserve great credit for their tireless efforts and attention to this most vital home-front campaign," said Chairman Perry. "All price panel members are volunteers. Their job is to insure price control by assisting retail merchants to understand OPA regulations and by reporting violations."

Mr. Crennan is chairman of the local price panel.

Housewives in the county today were urged by price panel chairman Crennan to co-operate in this program by not paying more than OPA maximum prices and by notifying the price panel of any violation.

Posters showing the community maximum prices for your county have been distributed to retail stores and are available at the War Price and Rationing Board.

The homemaker who has a question concerning prices should call the price panel.

PEACE IS OFFERED TO ITALY BY EISENHOWER

Peace can come to Italy if the Germans are driven out and Allied Prisoners are returned.

This in brief was the way General Eisenhower put the matter squarely up to the Italian people.

The proposal was not very well received in the United States because it had the effect of placing America in the position of asking rather than dictating peace. Such tactics are undoubtedly harmful to public morale.

The Italian government has ignored the proposals.

The only kind of proposal which the American people wish is that suggested by Winston Churchill, to blast Italy from end to end and bring home the war to the Italian people who tolerated the Fascist order and screamed their defiance when they thought they were conquerors.

Only a smattering of news came from Italy. There appeared to be every reason to think internal troubles are growing and revolution may be in the making.

The fighting in Tunisia was slowing down but the American 7th army had taken 4 more towns.

Nelson Davis of Sharp Awarded Silver Star For Gallantry in Action in Tunisia; Saved Lives of Wounded Comrades on Battle Field

Pfc. Nelson Davis of Sharp, with a Medical Detachment in North Africa, has been awarded the Silver Star for Gallantry in Action.

The citation came through in April and has reached his father, Will Davis of Sharp.

Pfc. Davis was cited for the award because of gallantry in action in saving wounded comrades while disregarding his own safety. Before entering the service Davis was engaged with his father at Sharp in large farming and stock raising operations.

A copy of the citation was brought to the Herald by W. H. Triggs, close friend of the family. The action for which Davis was cited occurred in February this year. Here is the citation complete as signed by Major W. L. Schmidt, Acting Adjutant General and on orders of Major General Ward:

"Nelson Davis, Private First Class,

Medical Detachment, 91st Armored Field Artillery Battalion, is awarded a Silver Star for gallantry in action. On February 14, 1943, he distinguished himself in action near Sidi Bou Zid, Tunisia. While his battery was being fired upon by enemy artillery, bombed by enemy aircraft and the personnel forced to seek cover, Private First Class Davis, with complete disregard for his own welfare, went about the area administering first aid to the wounded. Under heavy enemy fire he loaded his patients into a vehicle and evacuated them to an ambulance going to the rear. The calmness, courage and complete devotion to duty displayed by Private First Class Davis reflect the finest traditions of the Armed Forces and are deserving of the highest praise."

\$250 EXEMPTION VOTED FROM INCOME OF AGED

"A plan for exempting \$250 additional income earned by each old age assistance recipient is being submitted to the federal social security board for approval," J. S. Murchison, executive director of the State Department of Public Welfare, said today. The plan follows advice of Attorney General Gerald Mann concerning the provisions of a state law passed by the last legislature. The Attorney General interpreted this bill as applying to those persons on the rolls when the act became effective in May and to any person added to the rolls after May. He ruled that the act exempted \$250 above the amount formerly determined by the department as needed by the recipient.

This income must be in addition to the income that was being earned by the recipient when his grant was last determined. The exception applies only to income from seasonal and occasional employment and only when a recipient reports to the Welfare Department each month on the amount of his earnings and the name of his employer.

Since the federal government matches state money dollar for dollar, any change in the state law must be submitted to the federal government in order that it may determine whether or not it will continue matching money on the basis of the change. The Welfare Department is advising the federal government that under state law to plan must go into effect immediately. The local field workers will be sent instructions and forms within the next 10 days, welfare officials said.

CHRISTIAN SCIENCE SERVICES

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 8.

The Golden Text is: "Teach me to do thy will; for thou art my God: thy spirit is good; lead me into the land of uprightness" (Psalms 143:10).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Who hath directed the Spirit of the Lord, or being his counsellor hath taught him?" (Isaiah 40:13.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit, God, is infinite, all. Spirit can have no opposite" (page 278.)

TIN CAN CAMPAIGN BEING MAPPED HERE

Albert Collins, President of the Rotary Club, says plans are being mapped out for the coming collection of tin cans for the war effort.

Serious shortage of copper has caused the government to concentrate on tin cans. Metals in the cans are vital to the war effort.

The Rotary Club has been asked to sponsor the tin can drive in Cameron. As soon as the plans are available, Mr. Collins will give them publicity.

Of especial interest is the plan to provide a systematic and regular collection of the cans so the housewife may know that their efforts will be both appreciated and resultful.

ITALY WILL FIGHT ON REFUSING SURRENDER

The Italian cabinet will meet Thursday.

In London Wednesday a British spokesman said the mainland of Italy will be invaded soon.

According to information reaching the Daily Herald shortly before noon the morale of the Italian people has been stiffened considerably and prospects for peace are dim.

There still is no confirmation on the German claim that President Roosevelt had proposed an armistice by outlining a 7 point peace plan for Italy. In some informed circles it was believed some kind of program had been outlined other than the one announced by General Eisenhower.

As time elapsed it appeared more certain that the Allies would have to fight to realize the objective of unconditional surrender and seemed Wednesday to have begun to make good.

American and British Airmen early Wednesday went into the fight for Catania where the Germans are holding out on the last bit of ground left to the Axis in Sicily. Naples was again subjected to a terrific pounding and may soon be wiped out completely.

American and British naval forces were blasting the northern coast of Sicily to prevent any attempt on the part of the Axis troops to escape. The final stages of the Sicilian battle is in progress and the island may be in our hands within a matter of hours.

Perhaps the most important development of the day was the announcement of a German retreat all along the Russian line. Orel was within the grasp of the Red Army

now but five miles from the city and some of the Soviet troops fighting in the streets of the city. The Germans were reported withdrawing from the city. The Reds were determined to capture as many of the Nazi as possible. Reports have indicated there are some quarter million German troops in Orel.

As the situation looked at noon Wednesday Germany is defeated and may continue the war from here on only on defensive measures. The offensive launched in the Donets valley has failed and there the Germans are retreating.

The veterans of General Douglas MacArthur are now within the border of Munda. It is a war of extermination and is being waged in the jungle pattern of inch by inch.

A startling development was the appearance of Communist demonstra-

FINAL BATTLE FOR SICILY BEING WAGED

The Canadians fighting in close conjunction with the American 7th Army under command of General Patton have reached the German lines at Mt. Aetna.

The battle for Sicily was entering its final stage with the Germans being hemmed in by the British 8th Army under General Montgomery who announced on Sunday that the time had come to put the Germans out of Sicily, and the Americans and Canadians.

New important gains were made by the Allies in Sicily as United Nations bombers began to attack the Italian mainland.

A full scale attack on Italian cities was looked for at any time since the ultimatum sent by General Eisenhower calling for a surrender of the Italians, has been ignored. In fact it is now pretty well established that the Badoglio government was a test out for the effect of Mussolini's abdication to see what bargains might be driven with the Allies. Berlin is now saying that President Roosevelt has outlined a 7 point peace plan for Italy. There has been no confirmation of this from any reliable sources.

Eight American liberator bombers were forced down in Turkey and their crew interned, it was announced from Washington.

The RAF has lost another 30 bombers in a new raid on Hamburg. The saturation attacks on German cities are bringing havoc to the Reich. A Stockholm report says that 30,545 people have been killed in the North German seaport of Hamburg.

Mrs. Dick Houston has returned to her home after visiting her mother, Mrs. N. H. Butts. Miss Bettie Jo Smith of Austin, is a guest in the home of Mrs. Butts this week.

Are you a TOMATO BRUISER?

Careless handling of fresh fruits and vegetables by shoppers is one cause of food waste. For instance, a U. S. Department of Agriculture Bulletin estimates that one fresh tomato out of every seven has to be discarded because of bruising by customers. Join the war against food waste.

Have a "Coke" = Come, be blessed and be happy

... or how to break the ice in Iceland

"Come, be blessed and be happy", says the hospitable Iclander when he meets a stranger. That's a warm way of putting it, but no more friendly than the way American soldiers say it. Have a "Coke", says the Doughboy, and it works in Reykjavic as it does in Rochester. The pause that refreshes is the friendly way to say "Hi, pal" in any language. All over the globe Coca-Cola has become the gracious ice-breaker between kindly-minded strangers.

GERMANS EVACUATING BERLIN SAYS REPORT

Kiska, last of the important Aleutian Island bases of the Japanese, has been invaded by United States forces, according to a report from Japan.

There was no confirmation of the report from Washington but strong naval and air activity has been in progress on Kiska for several weeks.

From Stockholm, Sweden, came a report that the Germans are evacuating civilian populations from Berlin. The report came following a statement by Dr. Goebels. Fear that Berlin may be treated to a so called saturation raid and reduced as Hamburg, Essen and other German cities has been blasted, have led to plans to take out of the German capital all population not necessary for war.

Great panic was said to reign among some sections of the city. This however, was without confirmation.

Since Naples was bombed heavily on Sunday there has been some evacuation from industrial points in Italy. It was generally regarded that Italy had rejected an Allied ultimatum and may be taking General Eisenhower at his word when he said more than a week ago that Italy will be blasted unless she surrenders.

On the whole the situation had made the United Nations a bit ridiculous. So far as the people know the Allies are asking negotiations, instead of fighting on the mainland.

The Germans have been thrown back in violent fighting with American forces in Sicily. The Germans were said still bringing up reinforcements. The Allies have taken 9 more key towns.

The Americans lost 20 Liberator bombers in their initial mass attack on the Rumanian oil fields, it was announced in Washington Monday. It was also revealed that 50 German fighter planes were shot down by the Americans. Some 2000 men of the American air force took part in the raid.

The Reds have taken 40 more towns and killed 3000 Nazi on the Orel front. These are Red reports. The number of towns reported taken seem incredibly high. There are simply not that many towns in Russia or in any other country.

So far as known Monday the Badoglio government in Italy was resolved to continue the fight against the Allies. General Eisenhower, it seemed would have to make good his threat to bomb Italy on a blitz scale.

"My Friend Flicka" Celebrated Film to Open Here Thursday

The latest widely heralded novel to be made into a motion picture is Mary O'Hara's "My Friend Flicka," the new Technicolor film which is slated to open Thursday at the Cameron Theatre.

Mary O'Hara's beloved story had one of the most unusual careers in the history of publishing. Topping the list of best sellers for many months, it also had the signal distinction of being selected for reproduction in four of the nation's top-circulation magazines: Reader's Digest, Story Magazine, Red Book and Scholastic Magazine. In addition "My Friend Flicka" was picked by the Book-of-the-Month Club for its readers.

Climaxing all this was the news that 20th Century-Fox had arranged for the filming of the novel in Technicolor. The film company has long been noted for its faithful reproductions of novels, including "The Grapes of Wrath," "How Green Was My Valley" and "This Above All."

Producer Ralph Dietrich, entrusted with the filming of the novel, selected Roddy McDowall to head the cast of "My Friend Flicka." Appearing in the film version of a best selling novel seems to be Roddy's strong point, since his work in "How Green Was My Valley" and "The Pied Piper" accounted for much of the success of these films.

Featured with Roddy are Preston Foster, long noted for his virile film portraits and Rita Johnson, who won the coveted role of Roddy's mother.

Relatives and friends in Cameron were saddened over the death of Mrs. Jessie Sessions of Rockdale, wife of Dr. I. P. Session, long time resident of Rockdale. Mrs. Sessions is a sister of W. I. Clark of Cameron, and is well known here, having visited for many years in Cameron and was a devoted member of the Eastern Star, and often visited Cameron chapter. Mrs. Sessions suffered a broken hip from an accidental fall some time ago, and had never recovered from it. She was buried in Rockdale Sunday afternoon. Many friends from Cameron attended the funeral.

ALLIES STILL HOPE ITALY WILL SURRENDER

Based on reports to the Herald at noon the Allies were still hopeful Italy might surrender and one cog of the Axis be destroyed.

The Germans were fast reinforcing the gateway to the Balkans. It was believed that the Badoglio government was delaying action as a final aid to Germany, to give Hitler time to establish the lines he will defend in the coming campaign.

Unrest was rampant in Italy. The Vatican was the scene of great diplomatic activity and Italian capitulation was looked for this week end.

In London the British cabinet was put on notice to remain within earshot of 10 Downing street for big events were expected.

Speculation was rife, too much so for the matters involved. The Allies were pulling punches but did manage to get over Italy with bombers.

The Rome radio has broadcast that Benito Mussolini and Count Ciano, his son in law, are held prisoners in the war ministry building in Rome. It was the first news of their whereabouts and if reliable will put at rest all rumors concerning the pair. Ciano who was ambassador to the Vatican, was said to have resigned.

General Douglas MacArthur says the war in New Guinea is going according to schedule. The RAF and American bombers were stepping up attacks on Germany and occupied Europe.

Mrs. Emma Langdon and daughter Mary Dacy of Houston spent the week end in Cameron.

Apollo got the Glory ...the Vitamins did the work

Fortunately, we do not have to depend upon the whims of an Apollo for safeguards for our health. Science has demonstrated over and over again that sensible living and proper nutrition are the first steps toward a robust body and an alert mind.

The entire nation looks eagerly for news about Science's continuous studies of vitamins. One fact that has been determined is that the B Complex vitamins are the least plentiful in the foods that come to your table. Physicians say that your body is quick to feel a B Vitamins deficiency, but unharmed if you get more than enough.

The home of Budweiser is one of the world's biggest sources of B Complex vitamins. They are contained in brewer's yeast, which we supply to leading pharmaceutical manufacturers. From them, our armed forces and our

civilian population obtain millions of B Complex vitamin units to supplement the daily diet when necessary. The perfection of this vitamin-rich yeast is one more result of laboratory and research work that has helped to produce the world's most popular beer.

Budweiser

In addition to supplying the armed forces with glider parts, gun turret parts and foodstuffs, Anheuser-Busch produces materials which go into the manufacture of: Rubber • Aluminum Munitions • Medicines • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper • Soap and textiles—to name a few.

MUST NOT HARBOR AXIS CRIMINALS WHO ESCAPE

President Roosevelt Friday warned neutral countries not to harbor Axis criminals.

Reports persisted that Mussolini had entered neutral Switzerland. It is recalled that in world war No. 1 that the German Kaiser and members of his family went to Holland where the former emperor lived out the days of his life in a castle and fared sumptuously every day.

Neither the government of the United States nor Britain has any jurisdiction over other countries, but the President went as far as possible by stating that any neutral admitting Axis criminals will incur the displeasure of the Allies.

President Roosevelt said that Hitler, Mussolini, Tojo and all other Axis criminals will be tried in countries where their armies have pillaged and murdered. As the average laymen would arrange the trials they would occur as follows: Hitler, tried in Warsaw; Mussolini, tried in Athens; Tojo tried in Pearl Harbor.

If Washington and London deal with the German government in the same manner they are now dealing with Italy the German people have nothing to fear from us, seemed to be the general attitude of those who felt the Allies had lowered themselves in conducting any sort of negotiations with Italy.

Axis friendly Spain was giving out information on what is happening in Italy. According to these reports Italian soldiers and German soldiers are fighting.

Reports also said that Germans are pouring troops into northern Italy to secure the Dalmatian coast and all territory north of the Po River.

The battle in Sicily was entering its final stage. The Germans are fighting with a fanaticism as fierce as the Japs. In an engagement with Americans Thursday 200 Germans fought to the last man.

A German soldier spat in the face of a British intelligence officer and another German soldier severely bit the hand of a Britisher.

A report at noon Friday said the

Germans are still reinforcing their army in Sicily.
